

OFFICIAL: Conservatives cost more and deliver less

Local Schools Losing Out

Our local schools are not being treated fairly!

Leicestershire's schools are some of the lowest funded in the Country.

During the Coalition years, Lib Dem Schools Minister David Laws started work on a new formula that would give places like Leicestershire a fairer deal.

After the Coalition ended and the Tories took full control, they threw this policy out.

This means our local children are missing out on the levels of funding for their education that children elsewhere get.

As your local County Councillor Danny Findlay will make fighting for fair funding for schools a top priority!

It's Danny Findlay or the Tories!

This by-election will be a close fight between Danny Findlay & the Conservative.

Labour are a distant third on Leicestershire County Council and won't win here.

Many people are unhappy with the Conservative-run District and County Councils for their huge rises in Council Tax, their cuts to vital services like rural bus services and highways repairs, their cutting of the bin service and their plans for huge development locally without the services to go with them.

Many Labour supporters are lending their vote to Danny Findlay as the only candidate to beat the Tories this time.

It's Lib Dem or Tory in Leicestershire!

Seats held on Leicestershire County Council

Use this by-election to send the County Council a message it cannot ignore:

FINDLAY, Danny

Running Down our Roads

Over the next few years the Tory County Council plan to cut huge amounts from the road repairs budget. This will mean more potholes, more patching and fewer proper road repairs.

Rural roads in our area are likely to particularly lose out. As your County Councillor Danny Findlay will fight for the improvements to our local roads that residents know are needed.

Local NHS Under Strain

Many people report struggling to get an appointment at the GPs in Stoney Stanton. Our NHS is really over stretched and things are set to get worse with the local West Leicestershire NHS facing having to make a massive £20million of spending cuts. This will put our NHS under even more strain.

With our area facing even more development Danny Findlay believes we cannot cope with such huge developments, without the local services like more GPs to go with them.

Smelly Bins

Conservative bosses on Blaby District Council have voted for a new reduced bin service. This was despite a strong campaign by Lib Dems on Blaby Council to keep our existing service.

The Conservatives have decided to only empty the refuse and recycling bins fortnightly. People have been shocked to realise that a household that has less than four people in it will have to pay for a larger refuse or recycling bin.

People have told us that they are angry that having just received an eye watering rise in their council tax from both the Conservative County Council and Conservative District Council that they will have to pay even more to receive a 50% cut in their refuse service.

People continue to believe that these changes will reduce the amount of recycling collected and also lead to bin smells in the hot summer months.
